
St. Charles West High School Supply List

St. Charles, MO 63301

- Students at SCWest do not have a set school supply list, due to the number of courses offered at the high school. Teachers will provide any specific needs for the individual courses during the first few days of school.
- Students will need basic supplies such as pens, pencils, and paper.
- Please donate tissues, hand sanitizer and/or disinfecting wipes to AIP class, or the library.
- Organization of papers and materials is vital to success in high school. Students must have a place to store the papers they use/are assigned/must turn in for each class. This can be a separate folder for each class, separate binder for each class or a larger binder with organization tabs or an accordion file. Individual teachers may also make organization suggestions for requirements for their courses.
- **Introduction to Art 1, Ceramics/Sculpture 1/2, Drawing/Painting 1/2 and World Art** classes will utilize a sketchbook 9x12, colored pencils (prefer Sergeant or Prisma brand), school box or pencil pouch, watercolors (prefer Prang brand), black permanent markers (Sharpies), hand-held pencil sharpener, Elmer's glue and masking tape. ***Optional:*** drawing pencil set, acrylic paint brush set, clay set, Super Glue, gum erasers, apron/smock/paint shirt and colored permanent markers (Sharpies).
- Students in Algebra 1, Geometry, and some science classes will need a Texas Instruments Scientific calculator. **We recommend the TI-30XS MultiView.**
- Students in Algebra 2 and beyond will need a Texas Instruments Graphing calculator. We recommend the **TI-84** or **TI-84 Plus/Plus CE** calculator.
- Students taking the ACT can check this link to see what calculators are prohibited: <https://www.act.org/content/dam/act/unsecured/documents/ACT-calculator-policy.pdf> Look about halfway down the first page at "The following types of calculators are prohibited:" to see the prohibited calculator list.

Approved Calculators: TI-30XS MultiView, TI-84 Plus/Plus CE or TI-84
