Dear Parents and Students:

The City of St. Charles School District is committed to providing a safe, diverse, and innovative learning environment for all students. This handbook contains important information about policies and procedures that will help all of us meet that goal.

A wide range of topics are addressed in this handbook, and it is my hope that you will take the time to review the information and save it for future reference. Important contact information, calendar events, procedures, and most importantly, the Student Code of Conduct and statements of parent and student rights are included in this document. Students will be required to sign a form verifying receipt of the handbook and will be responsible for meeting the expectations and standards as described therein. Parents are encouraged to review and discuss the contents of the handbook with their child.

The handbooks can be viewed online on the district's website. Additional copies of the handbook are available by contacting your school's office. If you have any questions or concerns regarding any information contained in this handbook, please do not hesitate to contact your child's principal, myself, or any appropriate district administrator.

I wish you and your child a positive, safe, successful, and learning-filled school year. Thank you for allowing us the opportunity to reach, teach, and empower your child. We are fully dedicated to working together to ensure the best learning environment possible for you and all of our students.

## **I. HISTORY AND MISSION, VISION, GOALS**

### **HISTORY**

The first high school, at Fourth and Jefferson Streets, was bought with individual citizen contributions. Then in 1918 after a fire partially destroyed the building, the high school was moved to its present location at what was then the St. Charles Military Academy. In 1923, the present high school building (Section A) was constructed on a 6.4 acre site of the old military academy. The site was constructed by court decree to the St. Charles School District on condition that the School District should pay the college \$25,000. This amount was returned to the School District to become the "Ezra Overall Endowment Fund."

In 1938 the School Board purchased lots amounting to approximately four acres to be used for an athletic field. The athletic field bleachers were later constructed as a W.P.A. Project. In 1943 the (Success Campus) was constructed, bringing properties, not including the many minor improvements, to approximately \$475,000 at that time. The Board of Education purchased a tract of land lying west of and immediately adjacent to the high school athletic field in March, 1951. This tract contained 5.168 acres.

When the new junior high school building (Section B) was constructed in 1955 at a cost of approximately \$400,000, it contained classrooms, cafeteria, recreation room, teachers' rooms and gymnasium. Later in 1957-58, five new junior high classrooms and special service rooms were added along with the extension of the gymnasium, costing approximately \$256,000. This entire building was absorbed by the growing high school enrollment when the new junior high on Elm Street was constructed in 1960.

In the spring of 1964, a \$460,000 bond issue was approved by the voters of St. Charles, to provide for a fifteen-room addition to the high school (Section C) and an enlargement of the present cafeteria. These new areas were ready for the 1965-66 school year. In the fall of 1968, two sessions were started at Hardin Junior High School. The ninth grade was transferred from senior high school to Hardin Junior High School.

In 1973, Jefferson Junior High School was opened as a second junior high school. In 1981-82, Hardin and Jefferson changed to a middle school concept. Due to overcrowding at St. Charles High (1,957 students), the district was split into two high school attendance areas in the fall of 1975. Three hundred sophomores and one hundred twenty-five freshmen from the St. Charles West High School attendance area comprised the initial student body. Those students chose the name and logo of the new school. The first graduating class at St. Charles West High School was in the year 1979.

In 1978, the School Board voted to renovate portions of "A" Building. The renovation project included cleaning and repairing the outside of the building, repairing the guttering, and the complete renovation of three art rooms. In December of 1978 there was a fire in the art supply room just below the auditorium. The fire caused extensive damage to surrounding areas. As a result, the auditorium was completely cleaned and repaired, including the carpeting and floors. The fire was also responsible for a loss of \$60,000 of district materials and supplies.

The new Lewis and Clark Area Vocational-Technical School opened its doors for the first time in the fall of 1968-69. The school is designed to serve primarily two groups of people: 1. Junior and senior students enrolled full time in senior high schools of St. Charles County, and 2. Out-of-school youth and adults desiring training, retraining or trade extension training. It is the purpose of this school to serve all citizens in the area who need and desire vocational-technical education. In 1981, the ninth grade students were assigned to St. Charles High, making it a four-year high school. In April of 1985, a second major fire occurred at St. Charles High causing extensive damage to room 17A and the floor of the Auditorium.

The voters of St. Charles approved a bond issue in 1988 which provided a new band room, renovation of (Success Campus), renovation in both gyms, installation of an all-weather track, and a student parking lot. In 1994 the voters of St. Charles approved a bond issue to begin the renovation. During renovation, a massive fire destroyed the main building. The outer walls were saved, allowing reconstruction within the historic structure. Rededication of building A occurred on August 11, 1996 and following was the rededication of building B on March 22, 1998 and building C on August 23, 1998.

## II. ATTENDANCE

Students are expected to be present and punctual for all of their classes throughout the year. Each student's attendance is very important as attendance and academic success are closely connected. Academic failure is almost always associated with more than 10 days of absence each semester. A goal of the school district is to achieve 95% attendance or higher.

### ABSENCE PROCEDURE

When a student is going to be absent from school, the student's parents or guardian should notify the school by 9:00 a.m. to inform them of the absence by calling 443-4102.

Parents will receive an automated phone call by 9:30pm alerting you of an unexcused absence from the School Messenger phone system. This message is to notify you that we have not heard from you regarding your student's absence for that day. Please contact the attendance office the following morning to resolve the unexcused absence.

Excused (even with a doctor's note) and Unexcused absences both count against a student's overall attendance percentage for the school year. All absences (Excused and Unexcused) effect the Final Exam Exemption incentive.

### EXCESSIVE ABSENCE PROCEDURE

Missouri statute #167.031 mandates regular school attendance for children. Many of the benefits of regular classroom instruction are lost during extended absences and cannot be regained even with extra after-school instruction. The school may notify the parent of any concerns regarding excessive unexcused absences and/or tardiness to school. Principals may schedule and hold parent conferences, over the phone or in-person, when a student has been absent unless a doctor's note is on file in the office. After eight absences, principals have the authority to require written verification from a medical doctor for all future absences due to illness. All future medical-related excuses may be considered excused or unexcused at the principal's discretion. The principal's office and school nurse will work closely with parents on all medical related absences beyond ten.

All absences beyond 8 days or 40 blocks will be unexcused unless medical verification from a physician is provided and approved by the principal and/or attendance secretary. The school will notify parent(s)/guardian(s) of excessive absences through an Attendance Letter procedure. A letter will be sent to notify the parent(s)/guardian(s) of 5 absences and after 8 or more days of absences. The 8 day letter will inform of possible disciplinary action and/or truancy hearing.

### TARDIES

Tardies are disruptive to any class. Therefore, students are expected to arrive on time to class. If, for some reason, a student is detained by a teacher or administrator, the student should have that person provide them with a pass to enter class. **If a student is more than 10 minutes late to school, discipline will be issued based on the Code of Conduct.**

**NOTE: OVERSLEEPING, MISSING THE BUS, AND AUTOMOBILE BREAKDOWN ARE NOT REASONS FOR EXCUSED TARDIES EVEN WITH PARENT NOTES.**

### TRUANCY

Any student who is absent from school without the expressed consent and/or knowledge of the parent/guardian will be considered truant. Truancy will be disciplined according to the Code of Conduct.

### MISSOURI CHILDREN'S DIVISION

The City of St. Charles School District in partnership with the Eleventh Circuit Family Court and Missouri's Children's Division will be participating in a program utilizing a truancy court in an effort to assist and encourage positive attendance throughout our schools. As a result of this program, schools will establish systematic interventions to assist students and families in making sure each child attends school regularly in order to provide students every opportunity to succeed academically. As a part of this system, school officials will work in conjunction with deputy juvenile officers (DJOs), counselors, social workers, teachers, students, and parents in order to coordinate the necessary interventions. Additionally, school officials will work with the deputy juvenile officers to hold mandatory diversionary conferences for those students that meet and/or exceed five unexcused absences at any time throughout the school year. If at any time a student reaches eight unexcused absences in a school year and a diversionary conference has already been held, school officials will file a truancy referral to the Eleventh Circuit Family Court and/or an educational neglect referral to the Missouri Children's Division. Ultimately, it is the school district's hope that this

partnership will assist our community in ensuring that all of our students are able to attend school regularly in order to reach their potential academically.

### **DISMISSAL FOR VACATION AND/OR HOLIDAYS POLICY**

Parents are responsible to help encourage students to come to school. If parents decide to take their student out of school for any reason, they do so underneath the 8 absences policy listed above. In very rare circumstances permission may be granted by Dr. Happel. A written request, two weeks in advance, must be submitted to Dr. Happel for consideration. Even if these absences are excused, they will still count against the students' overall attendance percentage.

### **MSHSAA ATTENDANCE GUIDELINES**

**MSHSAA** By-law 22.0 states "If a student misses' class on the date of a contest without being excused by the principal, he/she shall not be considered eligible on that date." The same policy will apply for concerts, performances and dances. Students are required to be in attendance on Friday to participate on Saturday.

### **LEAVING SCHOOL FOR APPOINTMENTS POLICY**

#### 1. General-

If it is necessary for the student to leave the school during regular school hours, permission must be obtained from the attendance office by a note and a phone call from parent/guardian prior to students leaving. Principals will notify parents and confer with students who miss 8 or more days of school per year. A medical excuse or verification of the death of a family member will be required for each absence. All absences beyond 8 will be unexcused unless medical verification from a physician is provided and approved by the building principal. The principal will work closely with parents or guardians on all medical related absences.

#### 2. Appointment with a Dentist and/or Medical Doctor-

Students should show their appointment card to the attendance secretary before school in order to be excused to leave campus. Secretaries will call prior to students leaving for confirmation.

#### 3. Local Funeral-

A note from a parent should be presented to the attendance secretary before school or early in the school day which indicates the allotted time of the absence for the funeral.

#### 4. Leaving Campus-

Students should not leave campus before school once they come on campus. If they leave, a Saturday Campus, In school suspension, or out of school suspension will be assigned. If students leave and smoke cigarettes, it is considered a smoking offense. **If students ride the bus, they are on campus when they get on the bus.** Students cannot leave campus once they get to school. Students cannot leave campus and then come back on campus to serve a detention. Students cannot leave campus and then ride the bus.

### **MAKE-UP WORK POLICY**

#### ***Excused/Unexcused Absence:***

1. Teachers are not required to prepare examinations or tests early for students. Semester exams will not be given before the scheduled exam date except by teacher discretion.
2. Taking a test late may give an unfair advantage; therefore, teachers may give different tests.
3. Some subjects, such as Computer Applications, Industrial Technology, or those with laboratory experience may have activities which the student will not be able to duplicate if he/she is absent from school.
4. Students with excused & unexcused absences are expected to complete all make-up work. Generally, the student will have two days to make up work for each day of absence up to two weeks. However, if the assignment has been given with ample notice prior to the absence, the student is expected to be prepared to turn in the completed class work the day he/she returns.
5. If a student is absent less than three (3) days, they should get their homework assignments from their teachers upon their return to school. If a student is absent three (3) days or more, their assignments can be obtained by calling the school office in the morning. The assignment sheet may be picked up at the end of the day.
6. Students suspended will be allowed to complete for credit. Work must be turned in upon return date.
7. Students who are suspended out-of-school during the final exam period are expected to take final examinations. Suspended students must arrange a time to take their exams with their principal.

### **VISITORS**

An approved visitor must sign-in and wear a visitor ID badge. Upon leaving, they must sign-out and return the visitor ID badge. Failure to comply with these rules may result in disciplinary and/or police action.

### III. HEALTH CLINIC PROCEDURES

#### Health Information

It is imperative that students and parents communicate any health condition or change of such that will enable the school nurse to provide for adequate assessment, evaluation, or aid to the student during the school day. This includes medicines that the student may use only at home but may affect his/her performance at school. All pregnancies must be reported to the school nurse.

Those students who suffer severe allergic reactions to such things as bee stings must present a treatment plan to the school nurse along with the required medications such as an EpiPen or Benadryl. This is of utmost importance so that the school nurse can keep a student comfortable in a life-threatening situation when minutes count.

#### Accidents

Accidents on the school grounds or in the buildings should be reported immediately to the school nurse. The faculty member supervising the injured student must complete an accident form with necessary information concerning the circumstances related to the accident.

### 2022-2023 MISSOURI IMMUNIZATIONS FOR SCHOOL ATTENDANCE

The School Immunization Rule (19CSR20-28.010 Immunization Requirements for School Children) states that all immunizations must be up-to-date before being permitted to attend classes. The law requires documentation of Month/Day/Year and must include the signature and/or stamp of the provider.

Students in *Grade 9-12* must have the following.

- at least **4** doses of *diphtheria, pertussis, and tetanus*, **1** dose of **Tdap** is required to complete that vaccination series to protect against whooping cough
- at least **3** doses of *polio* vaccine
- **3** doses of *Hepatitis B* vaccine
- **2** MMR's (combination of *measles, mumps and rubella* vaccine)

All *9<sup>th</sup>, 10<sup>th</sup> and 11<sup>th</sup>* Grade students are also required to have **2** Varivax (chickenpox vaccine) or show satisfactory evidence of having the disease. A parent/guardian or MD or DO may sign and place on file with the school a written statement documenting the month and year of previous varicella (chickenpox disease).

All *12<sup>th</sup>* grade students are required to have 2 Meningococcal or 1 if given after their *16<sup>th</sup>* birthday. Meningococcal must be specified as **MCV4**, **Menactra**, or **Menveo** on the immunization record from the physician.

Only a medical exemption signed by an M.D. or a religious exemption from the Department of Health will be accepted in lieu of an updated immunization.

#### Illness

Any student who becomes ill at school will be assessed and evaluated by the school nurse. A decision will be made by her as to the release of the student from school or maintaining the student in classes. If the school nurse or health clerk is unavailable, the student must report to the attendance office for assistance. The student may only be released to those persons indicated on the Emergency Card submitted at the beginning of each school year by the parent/guardian or by direct verbal permission from the parent/guardian to a designated person.

#### Medication

The dispensing of medication by the nurse, principal or designee shall be restricted to necessary medicines that cannot be given on an alternative schedule. All prescription medicine must be in the original prescription bottle and must have authorized prescriber's written order and signature. A parent/guardian signature is also required. Submit

the completed "**PRESCRIPTION Medication Form**" and the medicine bottle to the school nurse. Prescription pills brought to school by a student must have a signed and dated note from the parent/guardian stating the number of pills sent to school. The medicine must be taken to the clinic by the beginning of classes that day.

For non-prescription or over-the-counter medicine [*with the exception of students in Lewis & Clark, RES or YES*), a prescriber's order is not required for the first 12 doses. Submit a completed "**NON-Prescription Medication Form for GRADES 5-12**" along with the medicine to the school nurse. It must be the original container with the label and seal intact. All non-prescription medicine doses must be the same as specific directions outlined on the manufacturer's label. ## GRADE REPORT SYSTEM

### Hybrid Grading System-All Courses

St. Charles High School uses a hybrid grading system mixed with elements of traditional and standard-based grading. Letter grades are calculated based on percentages earned in a given course. Each assessment is tied to standards which provide a focus for the students' learning and are aligned with district curriculum, state academic standards. Grades are based on the ability of a student to apply content knowledge and skills in and/or across content areas based on well-defined course objectives. A student's final course grade is influenced by academic standards/objectives, formative assessments, and Re-Teach/Re-Learn/Re-Assess opportunities.

Behaviors that promote learning will also be reported on the high school report card. These are factors, study habits, and skills that influence academic achievement and promote success, but are not directly tied to the curriculum objectives. Behaviors that promote learning are recorded as responsibility for learning, engagement of learning, and classroom behavior. They are reported in accordance to the non-academic high school scales and are separate from an academic grade.

Grade cards can be accessed at any time during the school year online through the gradebook Parent Portal. Passwords to use Parent Portal can be obtained from the guidance office with a working email address. Completed course grades are placed on the permanent record. Accumulative average and total number of credits are also on the permanent record. Class rank and grade point average are based on semester grades according to the following scale:

Grade Symbol	Grade Point
A	4.0
B	3.0
C	2.0
D	1.0
F	0.0
I	0.0

### GRADING SCALE

A	90% - 100%
B	80% - 89%
C	70% - 79%
D	65% - 69%
F	64% and below

### END OF COURSE EXAMS

The End of Course Exams (EOC) are required by 9<sup>th</sup>, 10<sup>th</sup>, & 11<sup>th</sup> graders depending on their schedule. Dates of this exam for will be provided when they are released.

### HONOR ROLL CRITERIA

Following are the criteria a student must meet to be eligible for the Honor Roll:

1. Maintain a 3.0 grade point average for the specific grading period.
2. Do not receive more than one C on the report card for the specific grading period.
3. Do not receive a D or F on the report card for the specific grading period.

### WEIGHTED GRADES

Weighted grades are number or letter grades that are assigned a numerical advantage when calculating a grade point average (GPA). Weighted grades give students a numerical advantage for grades earned in higher-level courses. Students taking any honors course, gifted course, advanced placement course, college level course, and/or the fourth and fifth year of a World Language will receive weighted credit for the courses. The general purpose of weighted grades is to give students taking higher-level courses an advantage when determining relative academic performance and related to honors or class rank.

## FINAL EXAM EXEMPTION INCENTIVE

**RATIONALE:** In an effort to inspire and reward serious academic achievement, the staff at St. Charles High School has agreed to an exemption policy for final examinations that includes all students for both semesters.

**CRITERIA:** *All students* may be exempted from final exams each semester under the following conditions.

- A. The teacher of the course chooses to participate in the final exam incentive. Students in Advanced Placement (AP) or college classes will take final exams per course requirements.
- B. The student completes an application form (available in the administrative office) requesting the exemption. The form is signed by the student, parent(s), and teacher; and is returned to the Attendance Office by the deadline. **Exemptions turned in after this date will not be approved.**
- C. The student has an "A" in the class for the semester defined as 90% or above for the semester. The teacher will determine the "A" criteria.
- D. The student has 96 percent cumulative attendance from the first day of school until the end of first semester (pending snow days), or from the first day of school until the end of second semester (pending snow days). **THE STUDENT MUST MAINTAIN 96% CUMULATIVE ATTENDANCE THROUGH THE END OF THE SEMESTER TO MAINTAIN EXEMPTION ELIGIBILITY.**
- E. The student has no major discipline defined as no more than four detentions, no Saturday Campus, no ISS or OSS **during the semester** of the requested exemption at the time of application.
- F. **The student must be free of fees and fines from the main office and Library fines in order to be exempt from any final.**
- G. Although the applications are due one week prior to exams, it is the student's responsibility to maintain an "A" for the semester up to the day of the final exam. If an "A" is not maintained the student will be required to take the exam.
- H. It is the student's responsibility to maintain all qualifying criteria after the application approval. *Additional absences and discipline could disqualify the student's eligibility for any exemption.*
- I. If a student has exempted a final(s) but has one or more Fs in other classes, they will be allowed to exempt a final if they meet the criteria; however, they will **NOT** be allowed to leave campus.
- J. In order to be able to sign out of school, you must be exempt from at least one final on that day.

### **Additional Information:**

- Students will be able to leave school during the exam time in which they are exempt by signing in and out through normal building procedures. Students remaining in the building must be in the direct supervision of a staff member who has given previous permission for the student to stay.
- Absences during an exempted final **will not count for** building attendance incentives, Renaissance, perfect attendance, and second semester attendance criteria for final exam exemption.
- **NOTE:** Students who are exempt but choose to take a final exam can only improve their grade. In this case, the final exam grade cannot negatively impact the semester.
- The student must have everything filled out, signed (including parent and teacher signature), and turned into the Attendance Office by the deadline to be exempt for Finals.

### **NOTE:**

Students who are exempt but choose to take a final exam can only improve their grades. In this case, the final exam grade cannot negatively impact the semester grade.

## STUDENT PARTICIPATION IN GRADUATION

Students must meet all requirements for a diploma established by the district and the Missouri State Department of Education in order to participate in the commencement ceremony. Students who exhibit unsatisfactory citizenship may be denied the privilege of taking part in the commencement ceremony under the administrative regulations established for high school students in the School District of the City of St. Charles.

**STUDENT PARTICIPATION IN STATEWIDE ASSESSMENTS**

The district must evaluate student progress after the initial assessment and report the progress in the aggregate at the building level as part of the annual report issued to patrons of the district. The district is required to report only the scores of students meeting the district’s attendance policy, and no report shall disclose student achievement data in such a manner that would personally identify any student. The district may establish a system of rewards and punishments designed to encourage the students of this district to give their best efforts on each portion of any statewide assessment established by law.

**This policy shall be provided at the beginning of the school year to each student and the parent, guardian or other person responsible for every student under 18 years of age. The policy will also be kept in the district office and the office of each school and will be available for viewing by the public during business hours at the district office.**

## VI. STUDENT INFORMATION

### BLOCK SCHEDULING

The SCHS schedule includes four classes each day Monday through Friday. Students will need to plan and organize their class and study time. In addition to their four classes, the students will have a daily 50 minute intervention time called Academic Intervention Period (AIP). During this time students will have the ability to travel to a teacher to gain a better understanding of the material through reviewing, remediation, and enrichment. The students can also use this time to retest or complete other types of assessments. The use of a Daily Planner supplied by the school will be recommended to become part of every student's organizational behavior.

### ANNOUNCEMENTS

A weekly bulletin is provided by the activities director and will be posted by teachers in each classroom. Announcements for the bulletin should be in the office by 2:05 p.m. on Thursday. The intercom system will be used for daily announcements.

### DRESS CODE

#### 2022-23 St. Charles High School Dress Code

(From the City of St. Charles School District Board Policy JFCA) The Board of Education recognizes the value of allowing individual student expression as well as the necessity of protecting student health and safety and maintaining an atmosphere conducive to education. Student dress code procedures must be designed with the goal of balancing these competing interests.

All dress code procedures will adhere to health and safety codes and comply with applicable law. Dress that materially disrupts the educational environment will be prohibited. No procedure will impose dress and grooming rules based on gender in violation of Title IX. District procedures will specifically define ambiguous terms, and examples will be provided when applicable.

The Faculty and Administration of St. Charles High School ask for your support of this process to help ensure student learning!**

St. Charles High School recognizes the significant impact that technology can have on the educational experience for each student. However, this recognition acknowledges that the use of technology can impact the educational environment both positively and negatively depending on how it is used in the school setting. In fact, the use of electronic devices during the school day may cause significant distraction to the learning process if used inappropriately. As a result, policies and procedures used will focus on discouraging these behaviors and encouraging those focused on strengthening the positive impact that technology may have on the educational environment.

### DRUG-DETECTING DOG USE IN COOPERATION WITH LAW ENFORCEMENT AGENCIES

The Board of Education recognizes its share of responsibility for the health, welfare and safety of the students who attend the St. Charles R-VI School District. Therefore, the use or possession of illegal drugs or controlled substances is prohibited on any school property. School lockers and desks are the property of the Board of Education and are provided for the convenience of students, and as such are subject to periodic inspection without notice. Similarly, students are permitted to park on school premises as a matter of privilege, not of right, and the school retains the authority to conduct routine patrols of the student parking lots. The Board of Education has directed the school administration to cooperate fully with law enforcement agencies in their efforts to decrease community drug problems, and to take the necessary and lawful steps to prevent any person from coming on to school property in possession of or under the influence of illegal drugs or controlled substances.

In light of these policies, and in order to further safety and promote discipline in the district by deterring and policing misconduct relating to tobacco, weapons and other contraband on school property, the Board authorizes the

use of drug-detection dogs in cooperation with law enforcement authorities. The district authorizes the use of trained drug-detection dogs recognizing that such use is legally sound and does not violate students' constitutional rights.

The Board's policy authorizing the use of drug-detecting dogs in cooperation with law enforcement authorities shall be noted in the locker, desk and student parking provisions of the Student Handbook. The Board designates, to coordinate with law enforcement agencies, the use of dogs trained in the detection of drugs, and to ensure that Board policy is complied with during any search arising out of the use of the drug-detecting dogs.

Once activated, the system has an alarm, which will sound as well as safes with supplies located in specific areas.
  - If the system is activated, evaluate your situation to determine if you should run, hide, fight.

If the principal's decision is in opposition to the proposals, the student council will have the right to appeal the decision to the superintendent. The appeal may be made if the original request was denied, or if the principal feels the original request should be resolved at a higher level. The superintendent will arrange for a meeting to discuss the proposal(s) with designated representatives from the student council, the sponsor of the student council, and the building principal.

**City of St. Charles School District**  
**HIGH SCHOOL CODE OF CONDUCT**  
**2022-2023**

The Board of Education of the City of St. Charles School District is committed to academic and social/emotional success for all students by providing a school climate that is safe and conducive to a positive teaching/learning environment. The Board of Education further believes that effective discipline policies and procedures promote such an environment, and that discipline is for the purpose of changing behaviors. The Board of Education provides an approved discipline policy to outline the conditions and expectations for success. Families are encouraged to review all behavioral expectations and consequences that will help ensure that students will be assured a productive, safe environment that promotes learning.

**Student Discipline**

**All students in the St. Charles School District are expected to:**

- Comply with district policies and procedures in each school building.
- Respect and obey all persons in authority (adults).
- Be prompt and regular with attendance.
- Be prepared with necessary books, paper, and other school supplies.
- Meet classroom standards of behavior and performance.
- Cooperate with all transportation guidelines and drivers.
- Maintain appropriate habits of communication, dress and personal hygiene.
- Respect the dignity, rights and property of others and avoid any activity that may endanger the health and safety of others.
- Assume responsibility for the care of school property.
- Accept the consequences of his/her behavior.

## Discipline Procedures and Definitions

Behaviors are outlined in categories. Within each category, behaviors are listed alphabetically and are grouped according to nature/severity of the infraction. Below each description will be 3 boxes representing from left to right the consequence for the 1<sup>st</sup> offense, 2<sup>nd</sup> offense, and Repeated offense (see illustration below)

FIRST OFFENSE	SECOND OFFENSE	REPEATED OFFENSE
---------------	----------------	------------------

The following pages outline specific behaviors and consequences if a violation occurs and results in an office referral. Teachers have the authority to assign detentions prior to giving an office referral. **Behaviors not specifically addressed, or chronic behavior may be referred for additional disciplinary action. These shall be classified as Conduct Prejudicial to Good Order, or as otherwise appropriate.** Administrators may deviate from stated maximum penalties when circumstances warrant with approval of the superintendent and/or Board of Education.

The intent of discipline is to assist students in recognizing unacceptable behaviors and replace those with acceptable behaviors. The district supports the concept of progressive discipline to encourage the development of self-control, but recognizes that it may need to deviate from progression when the nature, severity, or frequency of a student’s conduct so warrant. This process is intended to be instructional as well as corrective.

## Corporal Punishment

No person employed by or volunteering on behalf of the School District of the City of St. Charles shall administer or cause to be administered corporal punishment upon a student attending district schools. A staff member may, however, use reasonable physical force against a student without advance notice to the principal, for self-defense, the preservation of order, or the protection of other persons or the property of the school district.

**ELECTRONIC DEVICES & ACCESSORIES**

**Electronic Devices for Educational Use**

The City of St. Charles School District recognizes the significant impact that technology can have on the educational experience for each student. However, this recognition acknowledges that the use of technology can impact the educational environment both positively and negatively depending on how it is used in the school setting. In fact, the

use of electronic devices during the school day may cause significant distraction to the learning process if used inappropriately. As a result, policies and procedures used will focus on discouraging these behaviors and encouraging those focused on strengthening the positive impact that technology may have on the educational environment.

### One-to-One

In an effort to ensure that students have more equitable access to technology for educational purposes, students will have the opportunity to utilize a district issued Chromebook at school and at home throughout the school year. Students choosing not to take advantage of this opportunity may opt out of the one-to-one initiative, but they will be expected to have access to a similar device such as an updated or current laptop, Chromebook, or tablet device with the ability to access Google Apps and Classroom along with Google Chrome. **(With regard to this policy, Cell Phones are not considered an acceptable device).** Please see the City of St. Charles School District Chromebook Policy Handbook for more information.

### Cell Phones/Electronic Devices/Accessories

Students are **not** encouraged to bring cell phones or other electronic devices to school. **Please be advised that students bring these items at their own risk.** If students choose to bring such items, they should be turned off and securely stored out of sight during the school day. Cell Phones may be used before school, after school, during passing periods and at lunch only. Ultimately, classroom electronic device usage is at the discretion of the classroom teacher, and students are subject to discipline consequences for unauthorized or inappropriate use of such devices in the classroom. **If there is a need to contact students during the school day for an emergency, parents are encouraged to contact students through the school office.** Additionally, students are not to wear or display headphones and/or ear buds in the hallways or in the classroom without specific expressed permission of the classroom teacher.

property. ***CBD oil is considered a controlled substance by the school district.*** Any violations of this policy may result in police action and disciplinary action.

The District does, however, recognize the nature of addiction and offers students a therapeutic approach as opposed to a disciplinary consequence. Students in possession of any of the above substances or paraphernalia, and/or displaying behaviors consistent with being under the influence will be given the option of participating in the District’s STEP program (substance treatment and education program). STEP provides an alternative from out of school suspension through a partnership with Preferred Family Healthcare. Participants will receive drug and alcohol counseling along with educational services provided to maintain their coursework in their classes, while avoiding a disciplinary suspension. More information about this program is provided below.

Administrators may use situational, physical, or behavioral indicators to determine if students are under the influence of prohibited substances.

***Please note: Voters recently approved the use of medical marijuana in Missouri. However, marijuana is still illegal under federal law and, except for those authorized to use it medicinally, illegal in the state of Missouri. The City of St. Charles School District prohibits students from being under the influence or in possession of any illegal substance on district property, transportation or district events. Because marijuana is still illegal under federal law, the prohibition applies even to those who are legally authorized to use marijuana medicinally. Thank you for helping us to keep our schools’ drug free.*** A violation in this area is cause for an automatic removal from the A+ program.

However, there are other mandatory exclusions under the Safe Schools Act that do include juvenile court actions.

(Board Policy JG)

**SCHOOL SEARCH POLICY**

**Searches and Seizures by School Personnel**

To maintain order and discipline in the schools and to protect the safety and welfare of students and school personnel, school authorities may search a student, student lockers or student automobiles under the circumstances outlined in the guidelines below and in accordance with the law and may seize any illegal, unauthorized or contraband materials discovered in the search. In the event the law provides greater leeway for the district than this policy, the law shall prevail. Police and search dogs may also be utilized on school grounds and surroundings without notice.

**School Property**

School lockers, desks and other such property are owned by the school, and are subject to search at any time by school officials. Students are responsible for whatever is contained in their desks and in the lockers issued to them at school.

**Students or Personal Property** -- Students or student property may be searched based on reasonable suspicion of a violation of district rules, policy or state law. Reasonable suspicion must be based on facts known to the administration, credible information provided or reasonable inference drawn from such facts or information. Personal searches, and searches of student property, shall be limited in scope based on the original justification of the search. The privacy and dignity of students shall be respected. Searches shall be carried out in the presence of adult witnesses, and not in front of other students. Students shall not be required to undress, although they may be asked to empty pockets, or remove jackets, coats, shoes and other articles of exterior clothing for examination if reasonable under the circumstances.

**Automobiles** -- Students are permitted to park on school premises as a matter of privilege, not of right. The school retains the authority to conduct routine patrols of the student parking lots. The interior of a student's automobile on school premises may be searched if the school authority has reasonable suspicion to believe that illegal, unauthorized or contraband items are contained inside.

**Students Refusal of a Search** -- Law enforcement officials shall be contacted if the administration reasonably suspects that a student is concealing controlled substances, drug paraphernalia, weapons, stolen goods or evidence of a crime beneath his or her clothing and the student refuses to surrender such articles. Law enforcement officials may be contacted in any case involving a violation of law when a student refuses to allow a search, or where the search cannot safely be conducted. Parents may also be contacted.

**Seizure of Illegal Materials** -- If a properly conducted search yields illegal or unauthorized materials, such findings may be turned over to proper legal authorities for ultimate disposition.

**Illegal or Unauthorized Materials** -- For purposes of this policy, illegal or contraband material include all substances or materials, the presence of which is prohibited by school policy or state or federal law, including but not limited to, controlled substances, imitation controlled substances, drugs, drug paraphernalia, alcohol or alcoholic beverages, abusable glue or aerosol paint, guns, knives, weapons or incendiary devices.

**Interview with Police or Juvenile Officers/Other Law Enforcement Officials** -- The School District of the City of St. Charles has jurisdiction over students during the school day and hours of approved extracurricular activities. When law enforcement officials find it necessary to question students during the school day or periods of extracurricular activities, the school principal or designee will ask to be present and will request that the interview be conducted in private.

The principal will verify and record the identity of the officer or other authority and request an explanation of the need to question or interview the student at school. The principal ordinarily will make reasonable efforts to notify the student's parents/guardians. If the interviewer raises a valid objection to the notification, parents will not be notified.

### **Removal of Students from School by Law Enforcement Officials**

Before a student at school is arrested or taken into custody by law enforcement or other legally authorized person, the principal will make a reasonable effort to verify the official's identity. The school principal will attempt to notify the student's parent/guardian that the student is being removed from school, unless directed otherwise by the law enforcement official.

### **The School Resource Officer (SRO)**

The school resource officer (SRO) is a certified law enforcement officer who is assigned full-time to a school or schools. SROs receive many hours of specialized training. The concept of the SRO is very similar to the "officer on foot patrol" who knows the public he or she services on a first name basis and is sensitive to their particular needs. The SRO wears many hats; he or she is a friend, advisor, educator, positive role model, and someone to turn to in time of need.

As an educator, the SRO will visit classrooms and make presentations that concern student safety, traffic laws, general law, and crime prevention. SROs also work with individual teachers to create special programs tailored to specific units of study. The SRO may work with school administrators and students in the process of investigating suspected criminal violations that involve the school. In acting as a counselor, the SRO is available for conferences with students, parents and staff regarding law related issues or problems. The SRO is trained in all aspects of emergency situations to be able

to help the students and staff in any way they can. As you can see, the SRO is a very important asset to our Schools and the St. Charles Police Department.

### **Certain Violations Strictly Enforced**

The administration and staff of the St. Charles City School District believe that in order for teaching and learning to occur, a safe environment is necessary. In addition, the administration and staff believe that all children deserve an environment that is conducive to optimal teaching and learning. Therefore, the prohibitions against fighting or physical assaults (attempting to cause injury to another person, intentionally placing a person in reasonable apprehension of imminent physical injury) will be strictly enforced.

## **POLICE ACTION AND THE SCHOOL**

In event of police action against a student the following actions will be taken:

1. The district will make a reasonable effort to contact the parent or legal guardian of the student prior to the interview and/or to releasing the student to the law enforcement officer, unless directed otherwise by the officer. The District will also request that the law enforcement officer delay the interview and/or arrest until the parent or legal guardian can be present. However, the District does not have the authority to prohibit a law enforcement officer from questioning a student or taking a student into custody, or to interfere with the investigation of a potential crime. If an interview is conducted without the presence of the parents, the District will request that an administrator or other representative of the District be present during the interview. However, the District has no authority to require that such person be present as a condition of permitting the interview to occur.
  2. The District cannot ensure that parents will be present, as it is not legally required to have parents present when District officials (including the SRO) question a student.
  3. The District cannot ensure that it will be present during all interviews conducted by the police and should not pledge to protect the student's interests, especially when those interests may be (and usually are) directly adverse to those of the District and District personnel.
  4. In the event that a student is found to be in possession of any controlled substance (alcohol, drugs, look alike drugs, synthetic drugs, etc.) or weapons\*, a principal will immediately inform the police of such and will turn over such item(s) to the police for an investigation by a law enforcement agency.
  5. District administrators will report acts of school violence to the Superintendent's Office. Acts of school violence are defined as exertion of physical force by a student with the intent to do serious bodily harm to another person while on school property, including a school bus, or while involved in school activities. Acts of school violence may be reported to legal authorities, to teachers and other school district employees with a need to know. Administrators will report felonious behavior (first- and second-degree murder, kidnapping, first and second-degree assault, forcible rape, forcible sodomy, first and second-degree burglary, robbery, distribution of drugs to a minor, first degree arson, voluntary manslaughter, involuntary manslaughter, sexual assault, felonious restraint, property damage, and possession of a weapon under the weapon provision of Chapter 571 of Missouri Revised Statutes to appropriate law enforcement agencies.
  6. A principal will report to the superintendent and appropriate law enforcement agencies when any person is believed to have committed an act, which if committed by an adult, would be assault or sexual assault while on school property, school bus, or during school activities. The principal is also required to report to the superintendent and law enforcement agencies if a student is found to be in possession of a weapon or a controlled substance.
  7. A teacher will report to the principal any acts of assault, or possession of a weapon or a controlled substance.
- \* Any one of various objects used or intended to be used for fighting or creating violence.

# STUDENT SUSPENSION

## In-School Suspension

### Administrative Procedures

The following guidelines will be observed:

1. Students will be assigned to a special class where they will be adequately supervised at all times. The in-school suspension teacher will see that each student has textbooks and class work assignments from his or her regular teachers.
2. A principal will notify the parents by telephone if their child has been placed in in-school suspension and will follow up this verbal notification in writing. Reasons for the in-school suspension will be given, and a conference may be scheduled prior to the student's readmission to regular class.
3. Additional conferences with the school counselor and/or principal (s) may be scheduled at the discretion of a principal.
4. Students may not participate in extra-curricular activities while they are under in-school suspension, but they will receive credit for work completed during the suspension period.
5. Copies of specific building regulations concerning procedures in the in-school suspension room will be given to the student when he enters the in-school suspension room.
6. Any disruptions in the in-school suspension room may result in additional disciplinary action.
7. Students must earn their way back into the regular classroom by following all in-school suspension rules and completing all assignments given to them to the satisfaction of the supervising teacher.
8. At the discretion of the building principal and whenever possible, the student will begin their ISS assignment at the beginning of the following school day.
9. If a virtual student is placed in ISS the student's discipline will be notated on their record and the student is still required to zoom into the classes

## Out-of-School Suspension

### Administrative Procedures

The following procedures will be followed in any out-of-school suspension. When the term "student or parent/guardian" is used, this will mean student if he/she is 18 years of age or older; otherwise it will mean parent/guardian.

1. Notice. A principal, his designee, or superintendent at the time of contemplated action will give the student or parent/guardian notice of the contemplated action. Such notice may be oral or in writing.
2. Student's Response. The student will be given an opportunity to admit or deny the accusation, and to give his version of the events.  
Suspensions beyond ten (10) school days will require a suspension hearing. The hearing will be set by the Superintendent. The hearings will be informal and will involve the hearing officer, the building principal, the student and parent, and other school personnel (if needed). The purpose of the hearing will be to determine if the recommendation for additional days will be enforced, and if additional disciplinary measures should be imposed.
3. Out of school suspension greater than 10 days may be appealed to the Board of Education in accordance with Board Policy.
4. Students under suspension/expulsion are not allowed to be on or around any school campus in the district without the prior written consent of the Superintendent.

5. Students under suspension are not allowed to participate in or attend any extra-curricular activities sponsored by the school until they have attended classes on the first day after the suspension. Such activities include: basketball games, football games, dances, wrestling matches, concerts, club meetings, and other school sponsored activities.
6. Students suspended ten days or less out of school may be allowed to complete work for credit. Work must be turned in upon return date.
7. Students suspended out of school for more than ten days may be allowed to complete work for credit at the discretion of the school principal. The nature and requirements of some courses may make completion at home not feasible. School assignments will be provided in two week increments and new assignments may not be provided until prior work is submitted.
8. Re-admittance Conference - Students suspended for more than ten days will be readmitted only after a re-admittance conference has been held. Those involved in the conference will include the administrator, teacher, parent, student, and appropriate district personnel. The conference will be held to review the reason for suspension and remedial actions such as development of a behavior contract needed to prevent future occurrences.
9. Any virtual student that is removed from school for an out of school suspension should access their classroom work through the designated teachers google classroom and not resume zooming into the class until their suspension days have been met.

**Note: Any student suspended for an act of violence, drug-related activity, or other specified offenses per the Safe Schools Act (state law) are prohibited from being within 1000 feet of school during his/her suspension.**

### **The Re-Entry School (RES)**

Under certain circumstances and at the discretion of the Superintendent, students may be allowed to complete out-of-school suspensions at the district's Re-Entry School. Attendance at the Re-Entry School is a privilege and thus, students may only be assigned to the Re-Entry School once per calendar year.

### *Annual Notification of FERPA Rights and Designation of Directory Information*

The St. Charles R-VI School District complies fully with the Family Educational Rights and Privacy Act ("FERPA"). FERPA is a federal law that affords parents and students 18 years of age or older ("eligible students") certain rights with respect to the student's educational records. These rights are:

**RIGHT TO INSPECT:** Parents or eligible students have the right to inspect and review substantially all the student's educational records within 45 days of the day the District receives a request for access. Parents or eligible students should submit to the school Principal a written request identifying the records to be inspected.

**RIGHT TO PREVENT DISCLOSURES:** Parents or eligible students have the right to prevent disclosure of educational records to third parties with certain limited exceptions. It is the intent of this institution to limit the disclosure of information contained in educational records to those instances when prior written consent has been given to the disclosure. However, upon request the District will disclose information to officials of other schools in which a student seeks or intends to enroll. The District may also disclose information under the provisions of FERPA which allow disclosure without prior written consent, or items of directory information of which you have not refused to permit disclosure.

The District will disclose information to school officials who have a legitimate educational interest in the records. School officials include: persons employed by the District, whether paid or unpaid, as an administrator, supervisor, instructor, or support staff member, including health or medical staff; persons elected to the School Board; person employed by or under contract to the District to perform a special task, such as an attorney, auditor, etc.; or persons who are employed by the District's law enforcement unit. School officials have a legitimate educational interest if the officials are: performing a task related to a student's education; performing a task related to the discipline of a student; providing a service or benefit relating to the student or student's family, such as health care, counseling, job placement, or financial aid; or maintaining the safety and security of the campus.

The St. Charles R-VI School District has designated certain information contained in the educational records of its students as directory information for purposes of FERPA. The following information regarding students is considered **directory information**:

1. the student's name
2. photograph or other likeness
3. age
4. dates of attendance
5. grade level
6. enrollment status
7. participation in officially recognized activities and sports
8. weight and height of members of athletic teams
9. honors and awards received

The District may disclose directory information for any purpose in its discretion without the consent of a parent of a student or an eligible student. Parents of students and eligible students have the right, however, to refuse to permit the designation of any or all of the above information as directory information. In that case, the information will not be disclosed except with the consent of a parent or student, or as otherwise allowed by FERPA.

Any parent or student refusing to have any or all of the designated directory information disclosed must file written notification to this effect with the principal of the school which the student attends.

In the event a notification of refusal is not filed, the District assumes that neither a parent of a student or an eligible student objects to the release of the directory information designated.

**RIGHT TO REQUEST AMENDMENT:** Parents or eligible students have the right to request that the District correct any parts of an educational record which you believe to be inaccurate, misleading or otherwise in violation of your rights. Parents or eligible students should clearly identify, in writing directed to the school principal, the part of the record sought to be corrected and specify why it is inaccurate or misleading. If the District decides not to amend the record, it will notify the parents or eligible student and provide information on the right to a hearing to present evidence that the record should be changed.

**RIGHT TO COMPLAIN TO FERPA OFFICE:** Parents or eligible students have the right to file a complaint with the Family Policy Compliance Office, U.S. Department of Education, Washington, D.C., 20202-4605, concerning any alleged failure by the District to comply with FERPA.

**MILITARY RECRUITER ACCESS TO STUDENTS AND STUDENT RECRUITING INFORMATION:** Upon request of military recruiters, the District is required to provide access to secondary students' names, addresses, and telephone listings. However, any secondary student or parent of a secondary student may request that the student's name, address, and telephone listing not be released without prior written consent of the parent. Requests that a student's name, address, and telephone listing not be released to military recruiters must be submitted, in writing, to the school Principal. The District is also required to provide military recruiters with the same access to secondary school students as is provided generally to post-secondary educational institutions or to prospective employers of the students.

(Board Policies JO-R, KI, and JHDA.)

## ***Student Records***

In order to provide students with appropriate instruction and educational services, it is necessary for the district to maintain extensive and sometimes personal information about students and families. These records must be kept confidential in accordance with law, but must also be readily available to district personnel who need the records to effectively serve district students.

The superintendent or designee will provide for the proper administration of student records in accordance with law, will develop appropriate procedures for maintaining student records and will standardize procedures for the collection and transmittal of necessary information about individual students throughout the district. The building principal shall assist the superintendent in developing the student records system, maintaining and protecting the records in his or her building and developing protocols for releasing student education records. The superintendent or designee will make arrangements so that all district employees are trained annually on the confidentiality of student education records, as applicable for each employee classification.

### **Health Information**

Student health information is a type of student record that is particularly sensitive and protected by numerous state and federal laws. Student health information shall be protected from unauthorized, illegal or inappropriate disclosure by adherence to the principles of confidentiality and privacy. The information shall be protected regardless of whether the information is received orally, in writing or electronically and regardless of the type of record or method of storage.

### **Directory Information**

Directory information is information contained in an education record of a student that generally would not be considered harmful or an invasion of privacy if disclosed. The school district designates the following items as directory information:

Students in kindergarten through high school and vocational school -- Student's name; parent's name; grade level; participation in school-based activities and sports; weight and height of members of athletic teams; honors and awards received; artwork or coursework displayed by the district; most recent previous school attended; and photographs, videotapes, digital images and recorded sound unless such photographs, videotapes, digital images and recorded sound would be considered harmful or an invasion of privacy.

### **Parent and Eligible Student Access**

All parents will have the right to inspect their child's education records as allowed by law. As used in this policy, a "parent" includes a biological or adoptive parent, a guardian or an individual acting as a parent in the absence of a natural parent or guardian. The district will extend the same rights to either parent, regardless of divorce, custody or visitation rights, unless the district is provided with evidence that the parent's rights to inspect records have been legally revoked. The rights of the parent transfer to the student once the student turns 18, or attends an institution of postsecondary education, in accordance with law.

If a parent or eligible student believes the education records related to the student contain information that is inaccurate, misleading or in violation of the student's privacy, he or she may ask the district to amend the record by following the appeals procedures created by the superintendent or designee.

The district will annually notify parents and eligible students of their rights in accordance with law.

## Law Enforcement Access

The district may report or disclose education records to law enforcement and juvenile justice authorities if the disclosure concerns law enforcement's or juvenile justice authorities' ability to effectively serve, prior to adjudication, the student whose records are released. The officials and authorities to whom such information is disclosed must comply with applicable restrictions set forth in 20 U.S.C. § 1232g (b)(1)(E).

If the district reports a crime committed by a student with a disability as defined in the Individuals with Disabilities Education Act (IDEA), the district will transmit copies of the special education and disciplinary records to the authorities to whom the district reported the crime.

Law enforcement officials also have access to directory information and may obtain access to student education records in emergency situations as allowed by law. Otherwise, law enforcement officials must obtain a subpoena or consent from the parent or eligible student before a student's education records will be disclosed.

## Children's Division Access

The district may disclose education records to representatives of the Children's Division (CD) of the Department of Social Services when reporting child abuse and neglect in accordance with law. Once the CD obtains custody of a student, CD representatives may also have access to education records in accordance with law. CD representatives may also have access to directory information and may obtain access to student education records in emergency situations, as allowed by law.

These rights transfer from the parents to a student who is 18 years old or an emancipated minor under State law.

St. Charles R-VI School District has developed and adopted policies, in consultation with parents, regarding these rights, as well as arrangements to protect student privacy in the administration of protected information surveys and the collection, disclosure, or use of personal information for marketing, sales, or other distribution purposes. The District will

directly notify parents of these policies at least annually at the start of each school year and after any substantive changes. The District will also directly notify, such as through U.S. Mail or email, parents of students who are scheduled to participate in the specific activities or surveys covered by this policy and will provide an opportunity for the parent to opt his or her child out of participation of the specific activity or survey. The District will make this notification to parents at the beginning of the school year if the District has identified the specific or approximate dates of the activities or surveys at that time. For surveys and activities scheduled after the school year starts, parents will be provided reasonable notification of the planned activities and surveys and be provided an opportunity to opt their child out of such activities and surveys. Parents will also be provided an opportunity to review any pertinent surveys. Following is a list of the specific activities and surveys covered under this requirement:

- Collection, disclosure, or use of personal information for marketing, sales, or other distribution.
- Administration of any protected information survey not funded in whole or in part by ED.

3. **Resolution at LEA.** The LEA will then initiate its local complaint procedures in an effort to first resolve the complaint at the local level.
4. **Report by LEA.** Within thirty-five days of the complaint being filed, the LEA will submit a written summary of the LEA investigation and complaint resolution. This report is considered public record and may be made available to parents, teachers, and other members of the general public.
5. **Verification.** Within five days of receiving the written summary of a complaint resolution, the Department will verify the resolution of the complaint through an on-site visit, letter, or telephone call(s).
6. **Appeal.** The complainant or the LEA may appeal the decision of the Department to the U.S. Department of Education.

### 8. **How are complaints related to equitable services to nonpublic school children handled differently?**

In addition to the procedures listed in number 7 above, complaints related to equitable services will also be filed with the U.S. Department of Education, and they will receive all information related to the investigation and resolution of the complaint. Also, appeals to the United States Department of Education must be filed no longer than thirty days following the Department's resolution of the complaint (or its failure to resolve the complaint).

### 9. **How will appeals to the Department be investigated?**

The Department will initiate an investigation within ten days, which will be concluded within thirty days from the day of the appeal. This investigation may be continued beyond the thirty-day limit at the discretion of the Department. At the conclusion of the investigation, the Department will communicate the decision and reasons for the decision to the complainant and the LEA. Recommendations and details of the decision are to be implemented within fifteen days of the decision being delivered to the LEA.

### 10. **What happens if a complaint is not resolved at the state level (the Department)?**

The complainant or the LEA may appeal the decision of the Department to the United States Department of Education.

Dear Parent or Guardian:

Our district is required to inform you of information that you, according to Every Student Succeeds Act of 2015 (Public Law 114-95), have the right to know.

Upon your request, our district is required to provide to you in a timely manner, the following information:

- Whether your student's teacher has met State qualification and licensing criteria for the grade levels and subject areas in which the teacher provides instruction.
- Whether your student's teacher is teaching under emergency or other provisional status through which State qualification or licensing criteria have been waived.
- Whether your student's teacher is teaching in the field of discipline of the certification of the teacher.
- Whether your child is provided services by paraprofessionals and, if so, their qualifications.

In addition to the information that parents may request, a building receiving Title I.A funds must provide to each individual parent:

- Information on the level of achievement and academic growth of your student, if applicable and available, on each of the State academic assessments required under Title I.A.
- Timely notice that your student has been assigned, or has been taught for 4 or more consecutive weeks by, a teacher who has not met applicable State certification or licensure requirements at the grade level and subject area in which the teacher has been assigned.

## ***Electronic Communication***

Staff members are encouraged to communicate with students and parents/guardians for educational purposes using a variety of effective methods, including electronic communication. As with other forms of communication, staff members must maintain professional boundaries with students while using electronic communication regardless of whether the communication methods are provided by the district or the staff member uses his or her own personal electronic communication devices, accounts, webpages or other forms of electronic communication.

The district's policies, regulations, procedures and expectations regarding in-person communications at school and during the school day also apply to electronic communications for educational purposes, regardless of when those communications occur. Staff communications must be professional, and student communications must be appropriate. Staff members may only communicate with students electronically for educational purposes between the hours of 6:00 a.m. and 10:00 p.m. Staff members may use electronic communication with students only as frequently as necessary to accomplish the educational purpose.

1. When communicating electronically with students for educational purposes, staff members must use district-provided devices, accounts and forms of communication (such as computers, phones, telephone numbers, e-mail addresses and district-sponsored webpages or social networking sites), when available. If district-provided devices, accounts and forms of communication are unavailable, staff members communicating electronically with students must do so in accordance with number two below. Staff members may communicate with students using district-provided forms of communication without first obtaining supervisor approval. These communications may be monitored. With district permission, staff members may establish websites or other accounts on behalf of the district that enable communications between staff members and students or parents/guardians. Any such website or account is considered district sponsored and must be professional and conform to all district policies, regulations and procedures.
2. A staff member's supervisor may authorize a staff member to communicate with students using the staff member's personal telephone numbers, addresses, webpages or accounts (including, but not limited to, accounts used for texting) to organize or facilitate a district-sponsored class or activity if the communication is determined necessary or beneficial, if a district-sponsored form of communication is not available, and if the communication is related to the class or activity. The district will provide notification to the parents/guardians of students participating in classes or activities for which personal electronic communications have been approved. Staff members may be required to send the communications simultaneously to the supervisor if directed to do so. Staff members are required to provide their supervisors with all education-related communications with district students upon request.
3. Staff use of any electronic communication is subject to the district's policies, regulations and procedures including, but not limited to, policies, regulations, procedures and legal requirements governing the confidentiality and release of information about identifiable students. Employees who obtain pictures or other information about identifiable students through their connections with the district are prohibited from posting such pictures or information on personal websites or personal social networking websites without permission from a supervisor.
4. The district discourages staff members from communicating with students electronically for reasons other than educational purposes. When an electronic communication is not for educational purposes, the section of this policy titled "Exceptions to This Policy" applies, and if concerns are raised, the staff member must be prepared to demonstrate that the communications are appropriate. This policy does not limit staff members from communicating with their children, stepchildren or other persons living within the staff member's home who happen to be students of the district.

## Consequences

Staff members who violate this policy will be disciplined, up to and including termination of employment. Depending on the circumstances, the district may report staff members to law enforcement and the Children's Division (CD) of the Department of Social Services for further investigation, and the district may seek revocation of a staff member's license(s) with the Department of Elementary and Secondary Education (DESE).

Further information about Staff-Student Relations may be found on the District website in the Board Policies (Board Policy GBH)

## ***Information under the No Child Left Behind (NCLB) Act of 2001***

1. Parents have the right to request to know the professional qualifications of their child's instructor.
2. Parents must be given timely notification if their child is being taught for four or more weeks by a teacher who is not properly certified.
3. Parents must be given a variety of data concerning disaggregated test scores and teacher certification through the District's Annual Report.

## ***No Child Left Behind (NCLB) Complaint Resolution Procedures***

This complaint resolution procedure applies to all programs administered by the Missouri Department of Elementary and Secondary Education under the No Child Left Behind Act (NCLB).

A complaint is a formal allegation that a specific federal or state law or regulation has been violated, misapplied, or misinterpreted by school district personnel or by Department of Elementary and Secondary (DESE) personnel.

Any parent or guardian, surrogate parent, teacher, administrator, school board member, or other person directly involved with any activity, program, or project operated under the general supervision of DESE may file a complaint. Such a complaint must be in writing and signed; it will provide specific details of the situation and indicate the law or regulation that is allegedly being violated, misapplied, or misinterpreted. The written, signed complaint must be filed and the resolution pursued in accordance with local district policy. The Board recognizes that situations of concern to parents/guardians or the public may arise in the operation of the District. Such concerns are best resolved through communication with the appropriate staff members and officers of the District, such as the faculty, the principals, the Superintendent, or the Board. For a complaint under this section, the following procedure should be followed:

1. Complaints concerning individual students should first be addressed to the teacher.
2. Unresolved complaints from (1), or complaints concerning individual schools, should be directed to the principal of the school.
3. Unresolved complaints from (2), or complaints concerning individual schools, should be directed to the Associate Superintendent for Curriculum and Instruction.
4. In the event the Associate Superintendent of Curriculum and Instruction is unavailable, or the complaint is not settled satisfactorily by the Associate Superintendent of Curriculum and Instruction, reports should instead be directed to the Superintendent.
5. If the complaint is not settled satisfactorily by the Superintendent, it may be brought to the Board of Education. The complaint must be submitted to the secretary to the Board in writing. The complaint will be brought to the attention of the Board, and, if necessary, a hearing will be scheduled to resolve the complaint. The decision of the Board of Education shall be final.

If the issue cannot be resolved at the local level, the complainant may file a complaint with the Missouri Department of Elementary and Secondary Education. If there is no evidence that the parties have attempted in good faith to resolve the complaint at the local level, DESE may require the parties to do so and may provide technical assistance to facilitate such resolution.

Any persons directly affected by the actions of DESE may file a similarly written complaint if they believe state or federal laws or regulations have been violated, misapplied, or misinterpreted by DESE itself.

Anyone wishing more information about this procedure or how complaints are resolved may contact local district or DESE personnel.

### ***District and Statewide Assessment Program***

The district will use assessments as one indication of the success and quality of the district's education program. Further, the Board recognizes its obligation to provide for and administer assessments as required by law. The Board directs the Superintendent or designee to create procedures governing assessments consistent with law and Board policy.

In cooperation with the administrative and instructional staff, the Board will annually review student performance data and use this information to evaluate the effectiveness of the district's instructional programs, making adjustments as necessary.

The St. Charles School District will comply with all assessment requirements for students with disabilities mandated by federal and state law, including the individuals with Disabilities Education Act (IDEA).

### **Statewide Assessments**

The district will implement the components of the Missouri Assessment Program (MAP) in order to monitor the progress of all students in meeting the Show-Me Standards, as set forth by the Missouri State Board of Education.

The School Board authorizes the Superintendent to establish a process designed to encourage the students of this district to give their best efforts on each portion of any statewide assessment, which may include, but is not limited to, incentives or supplementary work as a consequence of performance.

The district's policy on student participation in statewide assessments shall be provided at the beginning of the school year to each student and the parent, guardian or other person responsible for every student under 18 years of age. The policy will also be kept in the district office and be available for viewing by the public during business hours of the district office.

### **National Assessment of Educational Progress**

If chosen, the district will participate in the National Assessment of Educational Progress (NAEP) as required by law.

## ***Notification of Human Sexuality Curriculum***

The district is required to notify the parent/guardian of each student enrolled in the district of the basic content of the district's human sexuality instruction to be provided to the student and of the parent's/guardian's right to remove the student from any part of the district's human sexuality instruction. The district is required to make all curriculum materials used in the district's human sexuality instruction available for public inspection as a public record prior to the use of such materials in actual instruction.  
(Board Policy IGAE: critical)

## ***Rights of Homeless Children***

The McKinney-Vento Homeless Assistance Act and subsequent amendments in 1990, 1994, 2001 and 2004 provide considerable protection for the educational needs of homeless children and youth in the United States. Subtitle B of Title VIII states that it is the policy of Congress that:

1. Homeless children and youth have equal access to the same free, appropriate public education as provided to other children and youth.
2. Residency requirements, practices or policies that may act as a barrier to enrollment will be revised to ensure that homeless children and youth are afforded the same free, appropriate public education as provided to other children and youth.
3. Homelessness alone should not be sufficient reason to separate students from the mainstream school environment.
4. Homeless children and youth should have access to the education and other services that such children and youth need to ensure that such children and youth have an opportunity to meet the same challenging state student performance standards to which all students are held.

School districts of each homeless child and youth are required to determine the child's best interest by either:

1. Continuing the child's education in the school of origin:
  - a. For the remainder of the academic year; or
  - b. In any case in which a family becomes homeless between academic years, for the following academic year; or:

2. Enrolling the child in any school that non-homeless students who live in the attendance area in which the child or youth resides are eligible to attend.

## ***Programs for English Language Learners (ELL) and Migrant Students***

### **English Language Learners**

The Board of Education recognizes the need to provide equal educational opportunities for all students in the district. Therefore, if the inability to speak and understand the English language excludes a student from effective participation in the educational programs offered by the district, the district shall take appropriate action to rectify the English language deficiency in order to provide the student equal access to its programs. Identifying students who are English language learners (ELL) and ensuring them equal access to appropriate programs are the first steps to improving their academic achievement levels.

The Board directs the district ELL coordinator to develop and implement language instruction programs that:

1. Identify language minority students through the use of a Student Home Language Survey (policy IGBH-AF1).
2. Identify language minority students who are also English language learners. Any student who indicates the use of a language other than English will be assessed for English proficiency using the state provided assessment instrument.
3. Determine the appropriate instructional environment for ELL students.
4. Annually assess the English proficiency of ELL students and monitor the progress of students receiving ESOL or bilingual instruction in order to determine their readiness for the mainstream classroom environment.
5. Provide parents with notice of and information regarding the instructional program as required by law. Parental involvement will be encouraged and parents will be regularly apprised of their child's progress.

(Board Policy IGBH: critical)

### ***Migrant Services (Title IC)***

The Title IC program focuses on helping migrant children overcome the educational barriers that result from repeated moves, allowing them the opportunity to succeed in regular school programs.

When the district receives the "Certificate of Eligibility Form" from the Migrant Center, the district Executive Secretary for grants notifies the building principal, building counselor, ELL teacher, classroom teacher, and Food Services Director of the student's migrant status.

In the fall, each building receives a list of their current migrant students. When a building receives notification of a new migrant student, the name should be added to the building's migrant list that was sent in the fall. The district encourages migrant parents to play an enthusiastic role and have a voice in all aspects of their children's education through participation and increased understanding of school regulations and activities.

(Board Policy IGBCB)

## ***Programs for the Disadvantaged***

In order to meet its goal of providing appropriate educational opportunities for all students in the St. Charles School District, the Board of Education shall participate in the federal Title I program.

The board recognizes that when schools work together with families to support learning, children are inclined to succeed not just in school, but throughout life. It is the board's intent to establish partnerships that will increase parental involvement and participation in promoting the social, emotional and academic growth of children.

The district will encourage Title I parents to be involved in supporting the education of their children in at least the following ways:

- Parents will be involved in the joint development of the Title I program plan and in the process of reviewing the implementation of the plan and suggesting improvements.
- The district will provide coordination, technical assistance and other support necessary to assist participating schools in planning and implementing parental involvement.
- The district will build the schools' and parents' capacity for strong parental involvement.
- The district will support the coordination and integration of Title I parental involvement strategies with those of other programs that include parent involvement by meeting with appropriate program coordinators at least once each year to plan such coordination and integration of parent involvement activities.
- The district will conduct, with the involvement of parents, an annual evaluation of the content and effectiveness of the parental involvement policy to determine whether there has been increased participation and whether there are barriers to greater participation, particularly by parents who are disabled, who have limited English proficiency, limited literacy or are of any racial or ethnic minority background.
- The district will use the evaluation findings in designing strategies for school improvement and in revising parental involvement policies and procedures at the district and building levels.

(Board Policy IGBC)

## ***Emergency Medications***

All student-occupied buildings in this district are equipped with prefilled epinephrine auto syringes and asthma-related rescue medications that can be administered in the event of severe allergic reaction causing anaphylaxis or a life-threatening asthma episode. These medications will only be administered in accordance with written protocols provided by an authorized prescriber. The school principal will maintain a list of personnel trained in the proper administration of these drugs.

The school principal or designee will also maintain a list of students who cannot, according to their parents/guardians, receive epinephrine or asthma-related rescue medications. A current copy of the list will be kept with the devices at all times. For further policy on administration of medications to students, please see Board Policy JHCD.

(Board Policy JHCD)

## ***Asbestos Notification***

The city of St. Charles School District has implemented an asbestos management plan to be in compliance with the U.S. Environmental Protection Agency (EPA). The results disclosed the presence of asbestos in some locations in the school district's buildings. These areas are currently being maintained to insure all students and employees of the school district are provided a safe and ASBESTOS free environment. The inspections and the findings of these inspections are on file and available for public review at the facilities maintenance office at 2450 Zumbuhl Road, St Charles, MO 63301 during normal working school hours

## Earthquake Safety For Missouri's Schools

**The New Madrid Seismic Zone Extends 120 Miles Southward** from the area of Charleston, Missouri, and Cairo, Illinois, through New Madrid and Caruthersville, following Interstate 55 to Blytheville and on down to Marked Tree, Arkansas. The NMSZ consists of a series of large, ancient faults that are buried beneath thick, soft sediments. These faults cross five state lines and cross the Mississippi River in three places and the Ohio River in two places.

**The New Madrid Seismic Zone and surrounding region is Active, Averaging More than 200 Measured Events per Year** (Magnitude 1.0 or greater), about 20 per month. Tremors large enough to be felt (Magnitude 2.5 – 3.0) are noted every year. The fault releases a shock of 4.0 or more, capable of local minor damage, about every 18 months. Magnitudes of 5.0 or greater occur about once per decade. They can cause significant damage and be felt in several states.

**The Highest Earthquake Risk in the United States** outside the West Coast is in the New Madrid Seismic Zone. Damaging temblors are not as frequent as in California, but when they do occur, the destruction covers over more than 20 times the area due to the nature of geologic materials in the region. The 1968 5.5 magnitude Dale, Illinois earthquake toppled chimneys and caused damage to unreinforced masonry in the St. Louis area, more than 100 miles from the epicenter. A 5.2 magnitude earthquake in April 2008 in southeast Illinois, did not cause damage in Missouri, but was felt across much of the state.

**A Damaging Earthquake in this Area**, which experts say is about a 6.0 magnitude event, occurs about once every 80 years (the last one in 1895 was centered near Charleston, Missouri). There is estimated to be a 25-40% chance for a magnitude 6.0 – 7.5 or greater earthquake along the New Madrid Seismic Zone in a 50-year period according to the U.S. Geological Survey reports. The results would be serious damage to unreinforced masonry buildings and other structures from Memphis to St. Louis. We are certainly overdue for this type of earthquake!

**A Major Earthquake in this Area - the Great New Madrid Earthquake of 1811-12** was actually a series of over 2000 shocks in five months, with several quakes believed to be a 7.0 Magnitude or higher. Eighteen of these rang church bells on the Eastern seaboard. The very land itself was destroyed in the Missouri Bootheel, making it unfit even for farming for many years. It was the largest release of seismic energy east of the Rocky Mountains in the history of the U.S. and was several times larger than the San Francisco quake of 1906.

**When Will Another Great Earthquake the Size of Those in 1811-12 Happen?** Several lines of research suggest that the catastrophic upheavals like those in 1811-12 visit the New Madrid region every 500-600 years. Hence, emergency planners, engineers, and seismologists do not expect a repeat of the intensity of the 1811-12 series for at least 100 years or more. However, even though the chance is remote, experts estimate the chances for a repeat earthquake of similar magnitude to the 1811-1812 New Madrid earthquakes over a 50-year period to be a 7 - 10% probability.

**What Can We Do to Protect Ourselves?** Education, planning, proper building construction, and preparedness are proven means to minimize earthquake losses, deaths, and injuries.

### Prepare a Home Earthquake Plan

- Choose a safe place in every room--under a sturdy table or desk or against an inside wall where nothing can fall on you.
- Practice DROP, COVER AND HOLD ON at least twice a year. Drop under a sturdy desk or table, hold onto the desk or table with one hand, and protect the back of the head with the other hand. If there's no table or desk nearby, kneel on the floor against an interior wall away from windows, bookcases, or tall furniture that could fall on you and protect the back of your head with one hand and your face with the other arm.
- Choose an out-of-town family contact.
- Take a first aid class from your local Red Cross chapter. Keep your training current.
- Get training in how to use your local fire department.
- Inform babysitters and neighbors.

### Eliminate Hazards

- Consult a professional to find and eliminate hazards that can protect your home, such as bolting the house to its foundation and other structural weaknesses.
- Bolt bookcases, china cabinets and other tall furniture to wall studs.
- Install strong latches on cupboards.
- Strap the water heater to wall studs.

### Prepare a Disaster Supplies Kit for Home and Car

- First aid kit and essential medications.
- Canned food and can opener.
- At least three gallons of water per person.
- Protective clothing, rainwear, and bedding or sleeping bags.
- Battery-powered radio, flashlight, and extra batteries.
- Special items for infant, elderly, or disabled family members.
- Written instructions for how to turn off gas, electricity, and water if authorities advise you to do so. (Remember, you'll need a professional to turn natural gas service back on.)
- Keeping essentials, such as a flashlight and sturdy shoes, by your bedside.

### Know What to Do When the Shaking BEGINS

- DROP, COVER AND HOLD ON! Move only a few steps to a nearby safe place. Stay indoors until the shaking stops and you're sure it's safe to exit. Stay away from windows.
- In a high-rise building, expect the fire alarms and sprinklers to go off during a quake.
- If you are in bed, hold on and stay there, protecting your head with a pillow.
- If you are outdoors, find a clear spot away from buildings, trees, and power lines. Drop to the ground.
- If you are in a car, slow down and drive to a clear place (as described above). Stay in the car until the shaking stops.

### Know What to Do AFTER the Shaking Stops

- Check yourself for injuries. Protect yourself from further danger by putting on long pants, a long-sleeved shirt, sturdy shoes, and work gloves.
- Check others for injuries. Give first aid for serious injuries.
- Look for and extinguish small fires. Eliminate fire hazards. Turn off the gas if you smell gas or think it's leaking. (Remember, only a professional should turn it back on.)
- Listen to the radio for instructions
- Expect aftershocks. Each time you feel one, DROP, COVER, AND HOLD ON!
- Inspect your home for damage. Get everyone out if your home is unsafe.
- Use the telephone only to report life-threatening emergencies.
