

Summer Challenge!!

Dear Upcoming 2nd Grade Families,

Our students have been working so hard this year, so let's keep them going strong over summer!

If your student completes 30 reading challenges and completes 30 days of math flashcard practice, they will receive a **PIZZA PARTY** when we return from summer break! All challenges are due by August 29, 2022.

Reading: In order to avoid the "summer slide," which is losing a bit of stamina, choose at least 30 different reading challenges to complete, then color that flower petal and place it on a flower stem.

Each petal (challenge) = 20 minutes of reading

Each flower should have at least 5 petals on it. This is a total of at least 600 minutes of reading. This sounds like a lot but it really is only 20 minutes a day for 30 days.

Math: It is essential for students to maintain flexibility with basic addition and subtraction facts up to 20. Included are flashcards your child can cut out. Please write the answer lightly on the **BACK** of the card and review with your child or have them review independently. Your child may also play a game, or use a math website to stay strong in math.

One math challenge= 10 minutes of math practice

20 mins.
reading =
1 petal!

SUMMER READING petals

DIRECTIONS: CUT AND PASTE THE PETALS AS YOU READ!
USE THE BLANK ONES TO CREATE YOUR OWN!

Read at
the pool

Read at
home

Read ~~20~~
minutes

Read in
the car

Read with
your sis

Read with
your bro

Read with
your
Mom
